

DE. 11/11/13

To Dear Sir,

As I am completing my Internship & shifting to my home town Bhuj-Kutch. I am here to thank you for your guidance & help you gave me through these years. Starting from 1st year orientation you seemed a jolly, kind, hearted, caring person. A person who enjoys his work deep from his heart. You became an idol for me because of the dynamic personality the way you deliver your speech, the way you conduct your self. From then till now when ever I listen to some one talking about dean of my college, I think they could have been luckier if they were your students and I am lucky to have a dean which has many qualities and multitasking. I am very inspired by the way you work, there are so many events & functions inside and outside college you handle and manage it so easily & smoothly. The best thing in you is you are always wearing a smile & spare time from your busy schedule even from tiniest problems of students.

Thankyou,
Happy diwali.
